FanDuel Group

RE: Data Reporting Analyst,

Dear Hiring Executive,

I would like to express my interest in the Reporting Data Analyst position. I am a self-motivated and progress-driven Data Analyst / Business Analyst with a long-standing record of initiative and innovation, I have developed and executed strategies that I believe will bring value to FanDuel Group.

I strongly believe that I am a good fit for your company and would love the opportunity to become a valued member of your team. I am an astute problem-solver capable of prioritizing and managing complex projects with proficiency.

In my previous role, I exercised skills in organization, teamwork and critical thinking and consistently contributed to team efforts and organizational improvements. I am open-minded and focused on new developments in my field. I have proven to be effective and motivational, with proficiency in critical thinking and collaborative work. I enjoy brainstorming and coordinating efforts to achieve a common goal.

As you review my resume, you may notice a brief gap in my work experience. I resigned from my previous position to relocate to the US to accommodate a new career opportunity for my spouse. While managing the logistics of my move, I completed my Data Analytics studies from Columbia Engineering. I am now settled and prepared to take the next steps in my career.

Please take a moment to review my enclosed resume and accompanying credentials. I would appreciate the opportunity to speak with you regarding my candidacy for the Data Reporting Analyst role. I am looking forward to your response and thank you for your consideration.

Sincerely,

Joao Costa
